## ALEX. ROSS HEADS COMPENSATION BOARD

The appointment of Alex. Ross, former minister of public works in the Alberta government, to the position of chairman of the Workmen's Compensation Board, succeeding John T. Stirling, who recently resigned on account of ill health, has been announced by Premier Brownlee. It is felt that Mr. Ross' administrative experience and familiarity with workmen's compensation legislation will particularly qualify him for the duties of his new position, which he assumed on Monday last.

## NEW MANAGEMENT FOR GEM THEATRE

P. Ubertino, of Moyle, B.C., has purchased from Mrs. J. L. Torgan, the Gem Theatre business. The new owner will take charge August 1st. Mr. Ubertino has had considerable experience in the theatre business, and has operated picture theatres in a number of towns in the west. He plans to provide Bassano with a good variety of picture entertainment. —Bassano Mail.

A fellow down near Cardston was recently sent to jail for making the moonshine.

Rev. J. W. and Mrs. Smith and family left on Tuesday on a month's vacation. In the absence of Mr. Smith, services at the United church will be carried on by supply.

Excavation for the foundation for the new tipple and washery at Cobbin, to replace those destroyed by fire on July 3rd, is now well under way. The new structures will cost in the neighborhood of \$200,000.

Tony Vajprava, town electrician, had his guest of baseball considerably marred during the extra innings last night, worrying as to whether the street lights were on and people were able to find their way about.

A couple travelling through the country by auto under the names of Theodore and Violet Dornier were fined \$25 and costs at Fernie for being intoxicated. This pair spent a few days in Blairmore enroute.

It is quite noticeable that some of the bachelors (?) whose wives are away on holiday, are considerably more attentive to the young ladies than when their wives are at home. We wonder why?—Wayne correspondence.

The body of Max Tustian, the ten-year-old son of Mr. and Mrs. Les. Tustian, who was drowned in the Elk river near Hosmer about two months ago, was discovered in a log jam on July 27th, about three hundred yards below where the lad fell into the river.

Lieut. B. Meakings, of the Coleman Salvation Army corps left for Calgary on Wednesday, July 25th, where he is spending a two-week holiday. Capt. S. Donnelly will be leaving about August 7th for a three-week holiday, which he will spend with his parents on Vancouver Island.

The Blue Diamond Coal Company have decided to discontinue operations at Brule. The present population of Brule is about 500, and it is claimed to be the most pleasant and comfortable mining camp in Alberta. It is unusually well laid out and equipped, with large public buildings, golf course, tennis courts, athletic grounds and other improvements.

We happened to have thirty-five cents in our office the other day, and learning about a tourist being held up in Southern Alberta and robbed of his travelling cheques, we left our back door wide open over night, figuring that the lock in that door was worth more than all our money. However, Mr. Burglar didn't show up, much to our pleasure.

## VACATION SCHOOL ENDS SUCCESSFULLY

The vacation school instituted a few weeks ago by Rev. J. W. Smith, and conducted at the United church and mission hall, terminated on Friday last with a grand concert in the evening and an exhibition of some of the splendid work accomplished by the kiddies, ranging in age from four to twelve years.

The interest taken in the venture by the kiddies and their parents far exceeded all expectations and the manner in which volunteers came forward as teachers was worthy of the highest praise.

The enrolment was as follows: for the first week 317, the second 327, the third 351—an aggregate of 995. Classes were operated, for beginners, four to six years; for primary, seven to nine years, and for junior, ten to twelve years. The daily programme consisted of religious exercises, various art works, etc. During each session, which occupied from 9.15 to 11.30 a.m., a light luncheon was served.

The concert and exhibition on Friday night proved one of the most interesting affairs in the town's history and was largely attended, not only by the kiddies themselves but by parents, elder brothers and sisters and friends. A programme of songs, recitations, etc., was gone through, with Rev. Mr. Villetta, of Pincher Creek, in the chair. Towards the close, various articles that had been made up during the school term were presented by one class to another, and surplus articles were offered for sale and found ready purchasers.

In response to the toast "The British Flag," the kiddies sang "O Canada" and recited their pledge of allegiance; and responding to the toast of the "Flag of Christianity and Pledge" they sang "Fling Out the Banner."

A feature of the evening was a remarkable address by the chairman, Mr. Villetta, who himself instituted the vacation school idea and operated the first school of its kind in Canada. The programme concluded with the singing of the National Anthem and the benediction.

The three weeks' school cost in the neighborhood of \$160. Towards this cost, grateful thanks are extended to the Elks for a contribution of \$50.00, the Pythian Sisters \$10.00, the Knights of Pythias \$10.00 and others, and with the collection and proceeds of sale on Friday night, the total cost has just about been met.

Thanks are also due the principal, Rev. J. W. Smith, and his able staff of assistants for their untiring efforts towards making the school a success.

## ST. LUKE'S CHURCH

Rev. A. D. Currie will conduct service on Sunday, 5th August, at 7 p.m.

Miss Benvenia Pozal has returned from a month's visit to Calgary.

The speed cop is back on the job—there is really need for checking up.

Mr. and Mrs. J. Payne, of Lethbridge, are visiting with Mr. and Mrs. H. Moore for a couple of weeks.

Remember the big picture, "Dawn," that will appear at the local theatre on Friday and Saturday of next week.

A dance extraordinary will be held at the opera house on Monday night next, with the Knights of Rhythm orchestra in attendance.

The big attraction at the Bellevue theatre on tomorrow and Saturday will be "Rose-Marie," a motion picture of the greatest musical comedy of the age.

Haying is now in full swing in the district south of Pincher and Cowley. Wheat in many places is ripening and second crop of alfalfa well in advance of the second crop last season.

## When Pay Day Comes

THE first claim you should meet on pay day is your savings. In time of sickness or unemployment, your money is your best friend—if you have saved it.

There comes a time for all of us when ability to earn must cease. Your accumulated savings must then take the place of your present earning power.

Ask for a copy of our booklet, "The Measure of Your Income." You will find it useful.

## The Royal Bank of Canada

WORLD HAPPENINGS  
BRIEFLY TOLD

Japan has announced unconditional acceptance of the American anti-war treaty.

H.R.H. Prince George has been appointed to H.M.S. Durban as an interpreter in French.

P. C. Caverhill, chief forester for British Columbia, will go to Australia to represent British Columbia at the British Empire forestry conference there.

Alaska now has more than forty landing fields for airplanes, and plans are under way for the construction of sixteen more, according to F. C. Crawford, of Fairbanks.

It is probable that Premier King will go to Geneva, in September, as a Canadian delegate to the League of Nations assembly and also as a member of the council of the League on which Canada now has a seat.

Leaders of the Arab congress presented Lord Plumer, the high commissioner, a demand for the institution of democratic rule in Palestine. Lord Plumer promised to take up the question at his visit to London.

French attorneys have entered protest against the "morally reprehensible" conduct of United States in regard to the "foreign divorce bill." The protest was sent to the American Bar Association.

An air mail stamp will be issued in Canada soon. The stamp has been approved by Hon. P. J. Veale, postmaster-general, but the denominations have not yet been decided upon. The stamp will be used on air mail routes now in operation.

The steamship North Shore has sailed from Quebec, prepared to stop at Greenley Island and Long Point in the mainland to pick up the dismantled trans-Atlantic plane Bremen and bring it to Quebec City, where the plane will be reassembled and placed on exhibition for a short time.

## The Newest Airship

Germany Is Proud Of Her New Super-Zeppelin

Behind the ceremonies attending the christening of the huge airship LZ-127, at Friedrichshafen, by a significance probably greater than a brief cable dispatch could indicate. They symbolized not only German pride in the completion of a new super-Zeppelin, but German aspiration for a renewed leadership in the many experts regard as an important future element in aviation—lighter-than-air transport.

The LZ-127, christened "Count Zeppelin," is now the world's largest completed airship. It is a greater "pay load" than any air vehicle in existence. Because of a wide travelling radius, it and others similarly large are expected to become in time the trans-ocean carriers of mail, express and passengers.

Germany is not alone in the construction of new super-zeppelins. In England even larger airships are being built, one for commercial purposes, with the idea of shortening travel time between London and Colonial possessions.

In the United States design data and bids have been asked for two new giants of the air to be used by the navy. It is, however, on the commercial possibilities of lighter-than-air craft that modern thought now centres.

## Bernard River

Interesting Story Of How This Western Stream Got Its Name

In 1928 Sir George Simpson, governor of the Hudson's Bay Company crossed Canada from east to west by way of Peace River. At half-past six on Sunday evening, September 7, the travellers laid aside their paddles to camp for the night at the mouth of a small tributary to Peace River, not far below where the latter river divides into two main branches, the Finlay and the Parsnip. In unmarking from large canoe, passengers had generally to be carried from the canoe to the shore. Sir George Simpson's guide, Bernard, was carrying the Governor ashore when he fell with him into the water. Since that day the river has borne the name Bernard and all that is known of the guide is that he was the principal figure in this incident. The name Bernard River has just been approved by the Geographic Board of Canada.

## Where Begging Is Prohibited

Begging is prohibited in Lima and Callao. An order recently issued by President Leguia states that, in view of the completion of a beggars asylum by the Lima Society of Public Benevolence, capable of caring for 200 persons, anybody found soliciting alms will be arrested.

W. N. U. 1744

## Automobiles At Settlers Effects

May Be Imported Without Sales Or Excise Tax Under Certain Conditions

Certain officers of National Revenue have apparently had difficulty in deciding whether or not to excise and sales tax applies on the importation of automobiles as settlers' effects, having in mind that Tariff Item 7054 provided for the collection of duty on the amount in excess of \$1,000 on motor vehicles imported as settlers' effects.

In order to clarify the situation, the Department submitted the question to the Department of Justice for an opinion as to whether or not the exemptions in Schedule 1 and 3, Chap. 179, Revised Statutes of Canada, had the effect of exempting cars imported as settlers' effects in total, or only to the value of \$1,000 each.

The Department of Justice has held that automobiles entered as bona fide settlers' effects may be imported without the imposition of either sales or excise tax. These cars, however, are subject to the regulations and restrictions by the Customs Division with respect to length of ownership prior to importation, and length of retention after importation.

## How a Town Prospers

Four Things Which Must Be Done To Ensure Success

George Brown, the great pioneer publisher of Toronto, addressed a Presbyterian audience in a little town, saying: "If you want your town to prosper there are four things that must be done:

- (1) You must buy from your local merchants.
- (2) You must uphold the character of your local manufacturers.
- (3) You must support your schools and churches liberally.
- (4) Above all you must give an ungrudging support to your local newspaper.

If you do these four things, and do them well, your town will one day be a city." His audience followed his advice and their town has become a city.

## Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

It was a pleasure to see the fine type of young men who were on the farm, vigorous, keen, happy fellows who only too evidently were anxious to "make good" in Canada. The progress they had made was evident in so much so that one of our party declared that the ploughing he had seen that day by former city workers would put to shame some so-called experienced ploughmen. Another declared that he would willingly engage, at current wages, men who proved capable as the young fellows he had seen that day. And still others took off his coat and gave the young men an object lesson in the swinging of an axe. Afterwards we were addressed by Mr. H. Bettendor, Under-Secretary to the Ministry of Labour, who made a very interesting and timely speech. Truth to tell, from our own observations, there was little but minor points of difference. These were given to recognize and commend an experiment which was so worthy in its aim.

An amusing but useful device was a number of rubber udders filled with water. These are used in the stages of teaching milking. An historic feature of the Westing Hall estate was the remains of a moated castle built by the son-in-law of William the Conqueror.

Back in London, after having lunch on the train as guests of the Ministry of Labour, we were accorded yet another high privilege, an informal reception at 10 Downing Street, by the Prime Minister, Mr. Stanley Baldwin and Mrs. Baldwin. Dignified, plain, simple, and yet more expressive of the British character than the unpunctuated house which Great Britain allies to her Prime Ministers. As with the house, so with Mr. Baldwin. The greeting given to us by the Prime Minister and Mrs. Baldwin was direct and sincere. We might have been visiting the home of an old friend. And it was as a friend that Mr. Baldwin spoke to us. Frankly and straight out, he told us of Britain's unemployment difficulty and appealed to us as fellow-citizens of the Empire to help so far as we could in the solution of the great problem to the mutual advantage of Great Britain and Canada. That we were invited to the Brandon experiment and had found it good was gratifying to him. He acknowledged it, saying it was not to be prejudiced because these men had been unemployed for a fairly long period. Unemployment had been their misfortune, not their fault. They were willing and sound at heart. All that needed after their long period of unemployment was a little encouragement. He hoped we would see, so far as we could, that the two nations were given to them when they got to Canada.

Who of us would have dreamed when starting on our tour that, before we went back, we should enter the cabinet room of 10 Downing Street, the Inner Council Chamber of the British Government, where so many momentous decisions have been made, affecting not only the Empire but the world itself, that in that room we should be taken into the confidence of the Prime Minister of Great Britain, that he would ask our goodwill in favor of a great experiment, and that we should be able to help, if we wished, in a great Empire purpose.

We had still another appointment.

## Proposed U. S. Legation at Ottawa

The new United States Legation at Ottawa will look American architects have drawn plans for the building. The site will be adjacent to the Rideau Club, fronting Parliament Hill, where two buildings will be demolished to make room for the new structure. The site cost the United States \$104,000 and the building will cost about \$250,000. This does not include quarters for the minister and his family and staff. It is the case with the Canadian legation at Washington, Canada's Washington legation cost \$500,000, including furniture and everything complete. The United States diplomatic service still has to provide the minister with a house, so the building cost of the United States ministry in Ottawa will far exceed that of Canada in Washington. The first floor of the new building will house the consular staff, the second the minister and his diplomatic staff, the third floor the commercial attaché and his staff.

before this fascinating day was ended. The Imperial Institute had invited us to dinner, where we were to meet the representatives of the woolen industry, under the chairmanship of Mr. Frederic A. Ackroyd, a large woolen manufacturer of Bradford. A magnificent banquet, tendered us by Mr. Ackroyd, was followed by addresses exhorting the Canadian farmer to grow long wool sheep which would meet the particular requirements of the British woolen trade. The challenging remarks of our hosts were met with stout defence by Mr. Arkell, of Canada's present policy in breeding more of the short-wooled breeds for most primarily on account of the premium to be secured on the markets of the United States. This added spice and stimulus to a delightful evening. Afterwards we were shown over a section of the Institute devoted to Dominion displays.

One more day and then "goodbye" to London, but before actually leaving her, we were to receive an unexpected honor, an unexpected invitation, and our greatest thrill of the tour, a flight from Croydon aerodrome, the largest and best equipped in the world.

The unexpected honor came from the King, who had invited us to a special place from which to view His Majesty's procession to Westminster. Here, too, we were to witness a fine sight to see the wonderful state coach go by accompanied by all the powers of the state. It was a most ceremonial. Our only regret was that Her Majesty, for the first time in the reign of His Majesty, was unable, through indisposition, to accompany the King to the opening of Parliament. The Prince of Wales, however, appeared on the balcony of the Palace with the Duchess of York, and the little Princess Elizabeth.

Our unexpected invitation came from Mr. George Robey, the famous comedian, who had reserved seats for the whole party at the Princess Theatre, where we saw his revue, "Bits and Pieces," prior to its being toured in Canada this summer. The aeroplane escorted for our flight at Croydon was of the "Silver Fly" type, a luxurious air liner capable of carrying 14 passengers, the pride of the Imperial Airways Fleet. Strong, graceful, beautiful, she had a wingspan of 74 feet, and a total length of 63 feet 6 inches. Her engine developed 1260 horsepower. She was capable of 105 miles an hour in still air, was furnished with basket arm chairs, and carried a buffet and waiter on her long trip. Let it be said at once, that more than one of us had a secret nervousness which we would not show, so not for worlds! We need have felt no qualms. In the hands of Captain Ollie, our chummy little pilot, she rose like bird. Up, up she climbed until she reached 3,000 feet. Below us surely lay the great London, but the land of Lilliput—tiny houses, tiny plots, and ribbons for roads—those two little spindles like the legs of a brass bedstead were the towers of the Crystal Palace. Favored by the wind we were travelling 110 miles an hour. It seemed like two, so slowly moved the landscape. Soon, all too soon, our quarter-of-an-hour in the air was ended. In a long graceful glide we slid to earth, landing lightly as a feather, then skimming along the ground to the place of debarkation. It was wonderful, exhilarating experience, more so than one, a "high spot" in the tour!

(To Be Continued.)

The stamp clerk often weighs other people's words.

## SUNDAY SCHOOL LESSON

AUGUST 5

PAUL IN A PAGAN COUNTRY

Golden Text: "I know how to be abased, and I know also how to abound."—Philippians 4:12.

Lesson: Acts 14:1-28.

Devotional Reading: Matthew 5:10-16.

Explanations and Comments.

A Cripple Cured At Lystra, verses 8-10.—At Lystra Paul and Barnabas were face to face with stark paganism. Apparently there were no Jews in the city, and few Romans. There being no synagogue, Paul began to preach outdoors. One day he noticed, on the ground near him, a lifelong cripple, who was listening with an eager attention that revealed to the apostle a heart which was sufficient for the man's healing. Suddenly Paul interrupted his address by commanding the man, in a loud voice: "Stand upright upon thy feet!" Up sprang the cripple, able to walk. Compare Jesus' words to the man with a palsied arm: "Stretch forth thy hand!" (Matthew 12:13) In each case there was immediate cure.

The men of Lystra looked upon a great material miracle, but the deeper fact was the spiritual miracle that lay behind it: the cripple's apprehension of the truth, and the application of it to his own case; the preacher's knowledge of it, and his keenness of sight in the man's operation of faith in the living Lord. That was the wonderful thing.—G. Campbell Morgan.

## Announces Arts Competition

Viscount Willington To Donate Prizes Totalling Thousand Dollars

Announcement that His Excellency Viscount Willington proposes awarding prizes amounting in all to \$1,000 for competition this year in music, drama, painting, and sculpture, will occasion much appreciation in art loving circles throughout the Dominion. In music there will be one prize of \$200, and two prizes of \$100 each; drama, one prize of \$200; painting, one prize of \$200; and sculpture, also one prize of \$200.

These gifts indicate not only His Excellency's interest in the arts in Canada, but also his interest in Canada generally. It is a practical interest of a type that will appeal to the competition, which he is inaugurating should do not a little to develop talent and engender skill in the arts, and it is to be hoped the best will be heard from in the contest.—Regina Post.

## Admits Of No Argument

Money Spent In Advertising Is Gilt-Edged Investment

The local merchant who fears to spend money in advertising, should never read the life story of John Wanamaker. If he does, he will have to revise his own life completely.

In a recent address made by Arthur Wanamaker, Vice-President, the New York Wanamaker Company, the speaker remarked apropos of John Wanamaker and his first venture into the retail business: "It is notable, and perhaps prophetic of modern business, that the first day's receipts of \$24,67, \$24,048, were spent for advertising, 67 cents being retained for convenience in making change the next morning."

There is an argument as to whether or not this was a wise proportion. There is no argument, however, as to the ultimate business success of the advertising—Wanamaker.

## New Born Settlements

New Towns Springing Up In The H.R.B. Area

Newborn settlements in Northern Canada are having rapid growth. Mining operations at Cranberry Port, Cold Lake and Flin Flon, and the demand of the Western Prairies for a shorter train haul to the ocean are the main causes for the building of the Hudson Bay Railroad now under construction by the Canadian Government and the Canadian National Railways. Stores, hotels and growing towns are quickly taking root in the north to care for the expected increase in population during the next few years.

## Through the Heart Of The Rockies

The journey by motor car over the entire length of the Banff-Windermere Highway through the heart of the Canadian Rockies can be made comfortably in one day. The route lies through virgin wilderness, but camp, automobile, canoeing grounds, bungalow camps, and service stations are located along the way in such numbers as to guarantee accommodation for those who wish to make a more leisurely survey of the road.

Production of lead, tin and zinc products in Canada has increased from \$2,151,000 in 1923, to \$5,149,000 in 1927.

Memory Of  
Explorer Honored

Hudson's Bay Company Remembers Captain From Whom It Takes Its Name

The Hudson's Bay Company of the year 1928, has done honor in a very beautiful way to the brave sea captain from whom it takes its name. One day in the spring of 1907 master Henry Hudson and his crew met at the little church of Saint Elizabeth, in Bishopgate Street, London, England, to take communion before sailing away to seek the Northwest Passage.

The little church was old then, but it still stands. The company has given it three windows, and in the recesses of some of its leading members, the first was unveiled a sort time ago on the anniversary of that communion.

In his little sailing-vessel, with a crew of eleven men and a boy, the adventurous captain made two voyages to the Arctic ocean. On the third, in 1609, he sailed for the Dutch East India company. Taking a more southern course he discovered the Hudson river, and the Dutch traders who followed founded New Amsterdam by building a fort at the mouth of the river. In the three centuries that have passed the great city of New York has grown up around that site.

In 1610 Hudson was again in the service of an English company. This time he took a crew of twenty-three men, and set out again to find the Northwest Passage. He discovered Hudson Bay, and spent the winter of 1610-11 there. In the spring of 1611 the crew mutinied as he was on his way to England. The captain, with seven sick men and his crew, but never since, the name of Captain Hudson has rung through Canada and the motherland, as well as the United States. The great company that still bears that name is one of the oldest and most honorable institutions of our country.

Homestead Entries  
Show Marked Increase

Great Activity Seen Around Land Offices In Alberta

Homestead entries at the various land offices in Alberta are showing a very marked increase as a result of new regulations announced from Ottawa. Under the new arrangement, persons who had proved up on their homesteads prior to January 1, 1925, are entitled to file on a second homestead. It is necessary, however, to have registered a claim for the first homestead in the Commissioner of Dominion Lands, Ottawa, specifying the land previously homesteaded and to secure authority from this source to enter for a second claim.

The Land Offices at Grand Prairie and Peace River are showing the greatest activity. At the former point 289 entries are reported during the month of June, making a total of 732 for the three months' period ending June 30, and at Peace River 400 entries in June have made up a total of 1,040 in the three months. North-bound trains from Edmonton are still carrying their full quota of prospective settlers, the majority of whom are either filing on homesteads or purchasing farm lands in the north.

## Willing To Oblige

Recently arrested and brought to court was an Irishman, to whom the thing was a new experience. He was, however, unbothered, and wore an air of a man determined not to get the worst of it. "Prisoner at the bar," rang out the clerk, "do you wish to challenge any of the jury?"

"Pat looked the men in the jury box over very carefully."

"Well, I'll tell ya," he finally said, "I'm not exactly in trainin', but I think I could step a round or two, wid that fat boy in 'er corner."

A wise man knows that his wife knows that he doesn't know his wife.

"But that has been blown up."

"Yes, everything except that notice."—Megdorey Blaster, Miss Mich.

**ALBERTA EXHIBITS.**  
FOR AMERICAN FAIRS

Exhibits of agricultural products and natural resources from Alberta will again be shown this season at a number of the larger fairs throughout the central states by the publicity branch of the department of agriculture. Reports from Canadian government agents indicate that a great deal of interest has been shown by farmers throughout the territory visited in this way last year and that immigration to the provinces has been materially assisted by the favorable impression created by these exhibits.

The fairs at which the Alberta display will appear during August and September include the following: Mississippi Valley Fair and Exposition, Davenport, Iowa; Hawkeye Fair and Exposition, Fort Dodge, Iowa; Blue Earth County Fair, Mankato, Minn.; Freeborn County Fair, Albert Lea, Minn.; Inter-State Fair, La Crosse, Wis.; Missouri State Fair, Sedalia, Mo.; North Central Kansas Free Fair, Belleville, Kan.; Brown County Tri-County Fair, Horton, Kan.; Kansas Free Fair, Topeka, Kan.; and Kansas State Fair Hutchinson, Kan.

**WHAT OTHER EDITORS SAY**

(Stratford Beacon-Herald)

A father and son, living on a farm in Moss Township, Middlesex County, attended a revival service in that district and were converted.

But after their conversion they

were troubled; they had been trapping out of season and thus breaking the law of the land.

So they both went to London and appeared before the magistrates there, telling what they had done, and requested that a fine should be levied against them. This was done, and they went away feeling a great deal better than when they came in.

Smile at that if you want to, but there's something deeper in it than a smile.

When a man gets the sort of religion in him that makes it impossible for him to go round and nurse a secret sin, it's pretty conclusive evidence that he's away to a new start.

He is not going to need any officers of the law chasing around after him to see that he goes straight; his soul and his conscience and all his finer instincts have been quickened into active operation.

**YOU CAN'T RIDE ON A GRUDGE**

Do you carry grudges? Cast them aside. Your burden in life is heavy enough without them. Do you boast of your grudges as a sign that you are a free man? Don't do it. Though you may have created your grudges and though you may feed them, they are your masters. You may carry your grudge uphill through life, but it will carry you only down. How often we hear the voice in the street in violent impatience. Smith cries: "If Jones is for it, I am against it." Then Jones counters. Smith's mind more firmly than if he were his closest friend. It is not worth while to waste our energies and vitiate our minds in hate and resentment. It is right to hate evil, but merely pity evil men. If you have been wronged, forget. Why keep the injury fresh? You suffered enough at the time. Do you long for revenge or to "get even" with some enemy, actual or imaginary? You magnify his triumph. You continue his ascendancy. You hypnotize yourself within his spell. It doesn't pay. Many happinesses are shared by the least fortunate of us, and many misfortunes befall the happiest of us. None of us can well afford to spend the hours of retrospect

and prospect in other than the happiest memories and the brightest hopes that charity and love can summon.—Ex.

**THE TOAST TO THE KING**

Times without number the toast to "The King" has been drunk in the Dominion of Canada, and yet it would surprise many people to learn that on frequent occasions a faux pas is committed by the compilers of toast lists. The St. Thomas Times-Journal in a recent editorial enlightens its readers as follows:

It is not uncommon, even among people who ought to know better, to put somebody down in the toast list to reply to the toast to "The King."

That is utterly wrong. There is only one man in Canada who can reply to such a toast. That is His Excellency the Governor-General, who is the personal representative of his Majesty in Canada.

The only people who can reply to the toast are the King himself, or other member of the Royal family, or his specially appointed official.

When "The King" is proposed, the right thing, and the only thing to do, unless one or other of the Royal family or the Governor-General is present, is to rise and sing the National Anthem.

According to the strict letter of the law of etiquette the St. Thomas paper is no doubt absolutely correct.

**TEACHER DECLARES  
MODERN EDUCATION  
MUCH TOO BOOKISH**

LONDON.—At the thirty-first annual conference of the National Association of Head Teachers, resolutions were passed dealing with the evils of greyhound racing, gambling and certain types of picture films, together with other more purely educational resolutions. The address of the incoming president, A. Saywell, London, dealt with what he called the "Reformation in Education." He pointed out that nearly all the failures in education were due to being too bookish, or through commencing a bookish education too soon. The

more closely they could bring the child into contact with the great world of nature, the greater would be the interest aroused and the greater the real knowledge.

Mr. Saywell pleaded for playing fields for school children. In recent years, he said, the children had been robbed of their only playing ground, the street, for the streets of large towns had become as dangerous as a battle field.

Pride of place on the agenda was given to a motion, which was passed, deploring the increasing facilities for gambling, especially by young people, and calling upon the government to pass legislation making it illegal for bookmakers to accept bets from young people under the age of 21, either on behalf of themselves or others. Another resolution expressed the opinion that the presence of children and young persons at meetings for greyhound racing should be prohibited, and urged local authorities to impose restrictions on all tracks when the dog racing bill became law.

The Hadow proposals for the transfer of children at 11 to various types of senior schools will not be opposed by the head teachers of the country.—Ex.

**DID YOU EVER STOP TO THINK?**

(By Edson R. Walte, Shawnee, Oklahoma)

George S. Hotchkiss, editor of the Doylestown (Pa.) Intelligencer, says that every time you buy outside your home town stores anything you can get in them, you are injuring your own interests.

I know a big town, not far from two large cities, in which a few years ago there was not one really good store. If you wanted anything, you were obliged to go out of town to get it.

Something brought about a change and now the town has many first-class stores and the people enjoy the convenience of getting anything they want within a few blocks of their homes.

They are increasing their conveniences because their patronage encourages the stores to improve in every way.

They are attracting buyers to their home town and building it up—and the greater part of the money they spend stays in the town.

They are furnishing employment for a large number of young men and women and enabling them to remain in their home town.

They have brought to an end one of the most destructive faults—knocking their home town.

And in the end they get better prices, because outside the big cities the overhead is less.

From knockers they have become boosters, because they are proud of their fine stores and want the world to know they have them.

Now, for the other side.

Part of this change was brought about by judicious and consistent advertising by merchants in the home papers.

In the series of elimination games now being conducted throughout the province for the amateur baseball championship, Hillcrest and Blairmore teams have crossed bats on two occasions this week. The first game at Hillcrest on Monday resulted in a win for Blairmore by the score of eleven to five. Last evening the two teams met again and after battling for eleven innings the game had to be called on account of darkness with the score standing six all. To win out in each series, two games must be won, so fans are promised further argument between these two teams for supremacy and the right to advance and meet the winners of another section of the play-downs. In an endeavor to decide this week who will represent the Pass, a third game will be staged tonight.

At least six persons were killed and about thirty injured when a crane working on the Welland canal slipped when lifting a 500-ton gate yesterday.

## THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1913)  
May 30.—Wednesday of this week  
was declared a public holiday, when  
practically every boy and girl in town  
were busy collecting stray cans. As  
a result of the day's collection, some  
65,000 cans were gathered in, for  
which one cent per dozen was paid.  
Besides the cans, an enormous quan-  
tity of old wire, iron, bottles, dishes,  
etc., was also purchased by the town  
and buried in a pit.

At Monday night's meeting of the  
town council, the suggestion was  
made and entertained favorably that  
a concrete sidewalk be built along  
Victoria Street from the Alberta hotel,  
at Fifth Avenue, to the corner of  
Ninth Avenue.

Plans are ready for the erection of  
an opera house, a large business  
block and a number of modern resi-  
dences at Bellevue.

"Variety Isle" will be the big vaudeville  
attraction at the opera house  
tomorrow night. Frank Rich Co.  
with a talented company of ten sun-  
shine girls.

Luther McCarthy, the white heavy-  
weight champion boxer of the world,  
died in the ring at Burns arena, Cal-  
gary, on Saturday, following a bout  
with Arthur Pelky, contender. Tom-  
my Burns, the promoter, and Pelky  
were placed under arrest, but were  
later released on bail of \$10,000 each.  
Following an inquest held on Satur-  
day night, the jury returned a ver-  
dict of accidental death, exonerating  
Pelky from all blame whatsoever.

Mr. and Mrs. L. P. Robert and Mr.  
and Mrs. R. M. Briscoe are going to Cow-  
ley Saturday for the sports.

J. Graham, who for the past year  
has been district manager for P.  
Burns & Co., is being transferred to  
Calgary and leaves for there next  
week.

The election of officers for Blair-  
more Lodge No. 68, L.O.O.F., on  
Tuesday night resulted as follows:  
Joseph Montalbetti, N.G.; Louis  
Gales, V.G.; Alex. Morency, R.S. The  
installation takes place the last meet-  
ing in June.

Steve Humble, of Bellevue, has pur-  
chased the stock of the Crows' Nest  
Pass Hardware Co.

Fred Padgett, of Bellevue, has been  
elected a delegate to the Methodist  
conference at Medicine Hat.

Tommy Burns, who promoted the  
McCarthy-Pelky fight at Calgary,  
threatens libel action against Rev.  
Sycamore, pastor of First Baptist  
church, Calgary, who is said to have  
stated during a sermon that the af-  
fair on Saturday was murder pure  
and simple. Action is also threat-  
ened against other ministers.

June 6.—221 pupils were enrolled  
at the Blairmore school during the  
month of May, and the aggregate  
days' attendance was 869.

A lodge of the Order of Owls was  
instituted here on Sunday. Messrs.  
Seale and Julian, the organizers, suc-  
ceeded in pocketing most of the or-  
ganization funds.

The federal government will be  
memorialized to have a certain por-  
tion of land adjoining Crows' Nest  
Lake reserved for public use as a  
summer retreat and recreation  
ground.

The little four-year-old son of J.  
Janigo was drowned near Hillcrest  
station on Monday. An uncle of the  
child was killed in the Bellevue mine  
about two weeks previous.

E. J. Pozzi is erecting a fine brick  
residence on the corner of Eighth  
Avenue and Dearborn Street.

Harry C. Moore, of Frank, has de-  
cided to move his law office to Blair-  
more.

Mark Drumm, who recently under-  
went an operation for appendicitis at  
Calgary, has returned to Frank.

F. S. McCall, B.D., of Alberta Col-  
lege, Edmonton, was in the Pass this  
week, after attending the Methodist

## COWLEY HAPPENINGS

The Ladies' Aid met at the home  
of Mrs. Cowin on Thursday last.

Mrs. Hannan and her two grand-  
sons, Tommy and Billie, of Lethbridge,  
have returned to town for a holiday.

Mrs. Peter McEwen has returned  
from a visit with her daughter, Mrs.  
Clarence Gilmore, and family at Lillo.

Mrs. Ralph Easterbrook, of Cal-  
gary, returned on Tuesday morning  
to pay her parents, Mr. and Mrs.  
Cowin, a visit.

Mr. Lowe's sale of live stock and  
implements, which was held here on  
Thursday last, was quite successful.  
The sale was conducted by H. D.  
Gerry.

Mr. Burkill is acting as relieving  
station agent here, while C. J. Bundy  
is taking a holiday by motor to  
points in B.C. He is accompanied by  
his wife.

Johnny Bullock, an old time resi-  
dent of the district, who is now in  
business at Gannog, Ontario, and  
who is making a motor trip to the  
coast, stopped over here for a few  
days' visit with old friends.

The conference of the Women's in-  
stitutes of the Rocky Mountain and  
Pincher Creek constituency will be  
held in Cowley on August the 9th.  
The bigger part of the day will be  
taken up with institute work. Eight  
branch institutes will be represented,  
as follows: Beaver Mines, Pincher  
Creek, Cowley, Lundbreck, Ashvale,  
Twin Butte, Brockle and Hillboro and  
Coleman. A flower show will be  
staged as a new feature of the pro-  
gramme.

All of Mrs. A. S. Donald's piano  
pupils, who took the examinations  
from the Toronto Conservatory of  
Music, were successful. They were:  
Muriel Marlow, Metta Swart, Gor-  
don Swart, Verdun Leigh, Edna  
Betts, Edith Murphy, Marion Morris-  
son, Barbara Bundy and Clara Bundy.  
Mr. Moser's violin pupils, who took  
examinations from the Toronto Con-  
servatory of Music, were also suc-  
cessful, namely: Sandy McEwen, Jack  
Bundy, Nellie Nelson, Jack Cowin,  
Alvin Murphy and Verdun Leigh.

## WHY SCHOOLMA'NS SMILE

William the Conqueror was thrown  
from his horse and wounded in the  
feudal system and died of it.

In Holland the people use water  
power to drive their windmills.

Cereals are films shown in the  
pictures.

Queen Elizabeth was called the  
Virgin Queen because she knew Latin.

John Bunyan was an ancient spe-  
cialist on foot troubles.

Glaciers are the guys that fix win-  
dows when they are broken.

A volcano is a mountain with a  
hole in the top. If you look down  
you see the greater smoking.

Steel wool is the fleece of a hy-  
draulic ram.

A curve is a straight line that has  
been bent.

Mara is a star so far off that it  
would take a million years to walk  
there in an express train.

A miracle is nothing that someone  
does that can't be done.

The marriage of Miss Laura Lord,  
daughter of Mr. and Mrs. Walter  
Lord, to Thomas Ernest Gale, of Mc-  
Laren's Mill, was solemnized by Rev.  
J. W. Smith at the United church  
manse on Saturday evening. Only  
the immediate relatives and friends  
were present.

conference at Medicine Hat.

The transfer of the customs office  
from Frank to Blairmore was ef-  
fected this week.

The law firm of Fawcett & Cam-  
erout are contemplating opening a  
branch office in Blairmore.

A residence for Mr. J. Menard,  
business manager of the West Cana-  
dian Collieries, Ltd., is being erect-  
ed in West Blairmore. D. A. Sinclair  
has the contract.

## LETTER FOUND IN TRASH

MAY BE FROM LINCOLN  
RICHMOND, Va.—Unearthed in a  
trash pile at Atlanta, a letter signed  
"A. Lincoln" and believed to be from  
President Lincoln soon after the war  
between the states, congratulates  
Michael Hahn, first post-bellum gov-  
ernor of Louisiana, on his election as  
"first free-state governor of Louisi-  
ana." The letter, written in bold  
hand and addressed to the Louisiana  
governor, is written on stationery,  
headed "Executive Mansion," dated  
March 13, 1864. O. P. Walton and  
"Tubby" Walton, restaurant owners,  
found it.

MacLeod's annual fair will be held  
on Tuesday and Wednesday of next  
week.

The regular fortnightly meeting of  
the town council will take place on  
Monday night next.

The infant child of Mr. and Mrs.  
Sam Battel died on Tuesday and was  
buried this afternoon.

Maurice Bond thought he was in  
with royalty the other day, when he  
was stung by a queen bee.

Otokots Elks have let a contract  
for the building of a new hall, to cost  
between eleven and twelve thousand  
dollars.

Pete McPherson has entered upon  
a term in the cage, not for any crimi-  
nal act, but to help the government  
distribute beer.

The town of Otokots will erect  
signs at various points within the  
town, worded: "You know the traffic  
regulations. Obey them."

Nick Oswald and party have re-  
turned from a fishing trip. Anyone  
wishing a feed of fish should make  
application to Mr. Oswald at once.

The rector of the parish of Wil-  
cannia, New South Wales, uses an  
airplane to cover his territory, which  
embraces more than 40,000 square  
miles.

The members of the local Rebekah  
Lodge will hold their annual picnic  
at Crows' Nest Lake on Wednesday  
next, August the 8th. Members are  
asked to bear this event in mind,  
and to bring their baskets and cups.  
Definite details as to time of leaving,  
etc., will be arranged at the regular  
meeting of the lodge tonight.

## Card of Thanks

Natal, B.C., July 31, 1928.  
Mr. G. Bartelli and family wish to  
thank all friends and relatives for  
their help and kindness shown during  
the illness of Mrs. Bartelli and in  
their aid and bereavement. Also to thank  
the following for floral tributes of  
respect and sympathy: Wreaths—Mr.  
and Mrs. T. DeLaca and family, Mi-  
cheli/Mrs. and Mrs. J. Travis and  
Mrs. and Mrs. D. Stevenson, Natal.  
Crosse—Misses Pauline and Mary Eb-  
erts, Natal. Sprays—Mr. and Mrs.  
A. Caussey, Mr. and Mrs. W. Hilton  
and daughter, Mr. and Mrs. F. Eb-  
erts and family, Cassandra Rebekah  
Lodge No. 31, Workington's Co-opera-  
tive Employees, Women of Moose-  
heart Legion, Miss Armstrong and  
Miss Vernon Travis, Natal; Mr. and  
Mrs. Mark Saxtoris and family, Mr.  
and Mrs. C. Minnall and Miss Mary Sax-  
toris, Blairmore; Mr. and Mrs. Paris  
Bartelli, Mr. and Mrs. W. F. Mon-  
talbetti, Corbin; Mr. Andy Losza and  
family, Micheli; Mr. and Mrs. L. Pun-  
igali, Hillcrest and Mr. and Mrs. Mar-  
telli, Fernie.

ANNOUNCES  
THE APPOINTMENT OF  
Crows' Nest Pass Motors  
BLAIRMORE, ALBERTA  
AS DEALERS FOR THE NEW MARMON  
LINE OF STRAIGHT-EIGHTS

THROUGH this company Mar-  
mon introduces its complete  
new line of straight-eights—  
providing a really distinctive mode of  
transportation and marvelous perfor-  
mance at moderate cost.

The New Marmon 78, at \$2250  
delivered, is a car of 120-inch  
wheelbase, but with the roominess  
heretofore considered possible only on  
a wheelbase of 130 inches, or more.  
The motor is a straight-eight (built by

Marmon) developing 86 horsepower  
and giving a top speed of 70 to 80  
miles per hour. Six body styles—  
The New Marmon 68 is the first  
straight-eight at the price of a six—a  
car of genuine Marmon quality, com-  
bining the spectacular in performance  
with real individuality and charm at  
the price of a six—\$2250 deliv-  
ered. Four body styles.

We extend a hearty invitation to see  
and try these two new cars.

## Industrial Development In Canada

Possibilities in the future development of industries in Canada, and the utilization of the natural resources of the Dominion as the essential raw materials in such development, and the manner in which all the people can assist in such development and expansion of manufacturing in Canada, formed the subject matter of a recent address by Hon. Charles Stewart, Minister of the Interior, before the Young Men's Section of the Winnipeg Board of Trade, which is worthy of the most serious consideration, and especially so because it is so simple, so thoroughly sound, and so applicable to all parts of the country.

Mr. Stewart did not vision a future Canada with a limited number of great manufacturing centres, possessing many huge plants, located in certain sections of the country, with gigantic outputs supplying the home market and providing a large export trade, and largely controlled by a few corporations or wealthy individuals. Undoubtedly Canada has already created a number of such large industries and will continue to do so as the population and wealth of the Dominion grows. The idea submitted by Mr. Stewart for serious consideration was along quite another line.

Mr. Stewart sees in Canada, east, central and west, in the north as well as in the southern portion, a country of vast resources and of varied character. Many of these natural resources of a similar nature are to be found in widely separated sections, and he feels their development should be general and that they should be tapped at many points rather than attempting to supply the requirements of the people from one or two places located far away from the mass of consumers.

In other words, Mr. Stewart advocates a study of a plan which contemplates the establishment of industries in numerous communities to utilize these natural resources which may be found adjacent to such communities and thus supply the local and regional demand instead of transporting such goods long distances from other countries or far distant parts of Canada. Such a plan, simply carried out, would not only result in huge savings in the aggregate to the public, but would lead to the development for use of resources now lying dormant, would build up numerous small industrial towns, provide more employment, and materially assist in solving the problem of unemployment which frequently becomes acute in certain parts of the Dominion by reason of the seasonal nature of the occupations of a vast majority of the people.

In presenting his thought on this subject, Mr. Stewart expressed the opinion that bodies like boards of trade should take up the close study of the raw materials of their districts, and of the markets for manufactured commodities. Such local studies would, he believed, reveal many possibilities for starting new industries at appropriate points, statistics on the importation and movements of manufactured commodities had led to the conclusion, he said, that many of the articles could be made at home, and also applied to goods transported from other parts of Canada in many cases unnecessarily, because the same thing could be made on the ground. The possibilities of manufacturing locally had been brought home to many towns and cities, largely through the initiative of enterprising public bodies like the board of trade, assisted by the facts on file in the department at Ottawa. Raw material, as far as possible, should, he contended, be prevented from leaving Canada so that the country's resources to the greatest extent might be utilized for these living things.

In all such endeavors, boards of trade everywhere, Mr. Stewart stated, would have the assistance of the government in a whole-hearted way. His department was always willing to co-operate with any public body in placing at the disposal of interested persons locations of the country's natural resources. Experts of the department would be available always, and would be sent to any localities where service might be required.

The policy suggested by Mr. Stewart should make a particularly strong appeal to boards of trade throughout the three prairie provinces, which, up to the present time, have been so largely dependent upon the other provinces and foreign markets for the manufactured goods which our people consume in such large quantities, and for which we have been obliged to pay high prices because of the enormous distances these goods have had to be transported from the point of manufacture.

That Mr. Stewart's idea is sound, is borne out by the experience of many towns and many industries. Some of the most flourishing industrial towns and cities secured their start through the establishment of a comparatively small local plant utilizing some raw material found in the locality, and history is filled with instances where these small local industries have, under careful but progressive management, grown into what are now classified as among the great industries of the country. Hundreds of such instances, both in Canada and the United States, could be given.

In the past, western board of trade, and western people generally, have possibly made the mistake of bending their energies to secure the location of branch factories, warehouses, or distributing agencies of outside concerns. The branch factory of some big and well known concern loomed larger on their horizons than a small locally-owned and operated factory. In the long run the latter offers greater things for the community than does the former. All its interests are at home and it is there its growth and development will count for most.

All Western Canada would gain through widespread action on Stewart's suggestion. Economically and politically the country he stronger and more prosperous if, instead of possessing a very few large industrial cities, these prairie provinces are dotted over with numerous, albeit medium sized, industries utilizing local supplies of raw materials and creating thriving communities about them.

### Special Cameras For

#### South Polar Flight

One Will Automatically Develop and Deliver Strips of Film

Photography is to play an important part in the South Polar flight to be made by Commander Byrd. Two

### Vacation!

When you are going on vacation take a bottle of Minard's Lintment. You'll need it for sunburns, bites, etc.

W. N. U. 1744

special automatic cameras are being constructed, one to take pictures of the sun as an aid to navigation, and the other to record each mile of the flight.

While the flight is in progress the first camera will automatically develop and deliver strips of film. The second camera will be attached to the bottom of the plane and will follow the path to the Pole, recording from a height of 5,000 feet a strip of the Polar plateau eight miles in width.

#### Will Not Lose Pictures

The request of the Canadian National Exhibition that the four state portraits of King Edward VII., Queen Alexandra, King George V., and Queen Mary may be loaned that the visitors to the C.N.E. might see them has been refused by the government on the grounds that these are gifts from His Majesty.

Life is made up of getting and giving and forgetting and forgiving.

### No Restrictions On

#### British Immigrants

Propaganda Calculated To Impair Prestige Of Canada Is Circulated

"Apart from the common sense requirements concerning health and character, there are no restrictions on Britishers coming to Canada to live," Hon. Peter Hennessey, minister of labor, said, when asked about complaints published in British papers that Canada was too strict in its provisions for admitting people from Great Britain into this country.

For some time, the minister added, both here and in England, Canadian immigration regulations have been subjected to severe criticism insofar as the admission of Britishers is concerned. It is claimed in England that people are not being encouraged to emigrate to Canada while in this country it is said that immigrants are being induced to come when no employment is available for them.

"It is difficult to see what the propagandists have in mind, but the result can only be to impair the prestige of Canada in the eyes of residents of the mother country."

## COMPLETELY RUN DOWN

Symptoms That the Blood Is Thin Should Not Be Neglected

Weak, run-down, lacking strength, energy and ambition, nervous sleeplessness, poor appetite, digestion disturbed—these are the symptoms named by a great majority of people who have been benefited by the use of Dr. Williams' Pink Pills. These tonic pills correct the condition known as "thin blood," and if you have any of these symptoms you should give these pills a trial. The great value of the pills of this kind is shown by the statement of Mrs. James A. Tibbetta, Halifax, N.S., who says: "I was completely run down in health. My blood was thin and watery, and my nerves so bad that I did not sleep well at night. My appetite was poor and the least exertion left me weak and trembling. When I went out I would have to lie down as soon as I got in the house. A friend advised me to try Dr. Williams' Pink Pills. I soon found they were helping me and by the time I had taken the sixth box I felt like a new woman, and have enjoyed good health ever since. For this reason I can highly recommend the pills to anyone run-down or troubled with their nerves."

Not only do Dr. Williams' Pink Pills help the nerves. Their main function is to enrich and purify the blood, and as the blood supplies the whole body, new life is given to the entire system. Better circulation, better nerves, improved appetite, increased vigor—all these can be yours by taking Dr. Williams' Pink Pills. Begin them today. Sold by all medicine dealers, or by mail post paid, at 50 cents a box, six boxes for \$2.50. Dr. Williams' Medicine Co., Brockville, Ont.

### Safety In The Air

Number Of Fatalities In Aviation Accidents Is Decreasing

In contrast to the rising death rate from automobile accidents is the decreasing number of fatalities in aviation accidents. In 1920 there were 180 deaths in airplane and balloon accidents; in 1926, when the number of those flying had increased enormously, there were 170 deaths. The ratio of deaths to miles flown was in the first year one to 97,557; in 1926, it was one to 1,387,964.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

The output of creamery butter for Saskatchewan in June, was over 1,276,707 pounds, an increase of 749 per cent. over the previous month.

## COULD NOT WORK FOR MONTHS

Restored to Health by Lydia E. Pinkham's Vegetable Compound

Port Elgin, N. B.—"For three months, I was nervous and weak with nervousness, feelings and could not do my work. A friend advised me to take Lydia E. Pinkham's Vegetable Compound and I have got good results from it and recommend it to others." L. L. FALLOWS, Port Elgin, N. B.

## "Swat the fly" with GILLET'S LYE

A teaspoonful of Gillett's Lye sprinkled in the Garbage Can prevents flies breeding

Use Gillett's Lye for all Cleaning and Disinfecting

### Recipes For This Week

(By Betty Barclay)

#### ORANGE SHORTCAKE

- 2 cups flour.
- 1 teaspoon salt.
- 3 tablespoons baking powder.
- 4 tablespoons sugar.
- 4 tablespoons shortening.
- 1/2 to 3/4 cup milk.

Sift the dry materials until well blended. Rub in the shortening using a fork. Cut in just enough milk to make a soft dough. Put in greased cake pan, press with back of hand to shape pan, and bake twelve to fifteen minutes in hot oven.

#### Filling

- 6 oranges.
- 1/2 cup sugar.
- Wash oranges, remove the skin, cutting off all white membrane. Cut the orange in half and cut in cubes of uniform size. Sprinkle with sugar, then spread between the prepared crusts. Serve with a sauce made with the juice of two oranges and three fourths cup sugar.

#### MEDIUM CREAM SAUCE FOR VEGETABLES

- 2 tablespoons butter.
- 2 tablespoons flour.
- 1/2 cup milk.
- 1/4 teaspoon salt.
- 1/4 cup cream.

Put butter in saucepan, stir until melted; add flour mixed with seasoning. Stir until thoroughly blended. Pour on milk, one-third at a time, and stir. Bring to the boiling point. Double boiler is preferable in order to prevent burning. Use 1 cup cream sauce to 1 cup cooked vegetable.

Asthma Can Be Cured... Its suffering is as needless as it is terrible to endure. After its many years of relief of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

### Pool To Pay Dividends

Saskatchewan Wheat Pool Members To Benefit Through Dividends

On Pool Elevator System

Members of the Saskatchewan Wheat Pool will receive approximately \$800,000 in September as a result of the six per cent. dividend that the Pool is paying on the money invested in the Pool elevator system. The principal for this system has been obtained from members by deducting two cents per bushel from all cheques paid to them.

The Pool members will also receive a dividend of 5 per cent. on the reserve fund. C. W. King, manager of the Pool here, was unable to say what amount this would involve.

It was stated recently by A. J. McPhail, president of the Wheat Pool, that as soon as the Pool controlled shipping facilities at every point the two cents per bushel deduction would be returned to members and that the ownership of the system would be kept fresh, by the "revolving door system" which means that two cents per bushel would still be deducted from annual payments by members, but a corresponding amount would be returned each year. Thus members of the Pool were saving an amount annually, which in many cases was as high as \$300.

By using X-rays, two generations of tobacco plants have been grown in one year.

Let Minard's Lintment Relieve Pain.

The average man often uses better judgment in selecting a cigar than in choosing a wife.

### Invented Electric Net To Snare Submarines

Eminent Canadian Also Aided Admiralty With Charts Of British Isles

Albert Close, eminent Canadian cartographer, whose charts of the British Isles proved invaluable to British fishermen and to the admiralty during the great war, has returned for a visit to his old home, at Nanaimo, Ont. A great achievement of his during the war was the inventing of an electric net to snare submarines. He has recently prepared a detailed plan of the battle of Jutland, for which he was congratulated by Lord Jellicoe. Before returning to England, Mr. Close will interview the department of marine and fisheries and fishing skippers of Newfoundland, Nova Scotia, and the Atlantic coast to obtain information of assistance in preparing new charts of Atlantic coast waters.

### Hoover In English Eyes

Hope Is Expressed That He May Be The Next President Of U.S.

It is the hope of those who see beyond the narrowing confines of Pan-Americanism, that Hoover may be the next President. Personally, I feel that it would be a wonderful thing for his country, for ours, and for the world at large, if he were in the presidential chair.

He seems to me to have grown; to have widened and broadened. I believe now, as I did ten years ago when I was working with him, that he is one of America's greatest men.—Fannie S. Swan in the British Weekly.

It Testifies For Itself.—Dr. Thomas' Electric Oil needs no testimonials of its powers other than its self. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantees. This shows why this oil is in general use.

Acted As Wireless Apparatus

Shovel Station Reproduced Radio Program

A few days ago a coal shovel hanging on the wall of the Fire Brigade station at Kalmar, Sweden, suddenly assumed the role of a local entertainer, and began to speak, sing and play!

The firemen were puzzled, and after a closer investigation it appeared that the shovel's performance synchronized with the sending of the local wireless broadcasting station.

In some peculiar manner the shovel acted as an ordinary wireless apparatus. It was found that it was suspended on the wall in such a position that it touched the power line of the Kalmar wireless station, and it reproduced clearly and distinctly everything sent out from that station. Wireless experts, however, have been unable so far to give a satisfactory explanation of the occurrence.

"What a lovely fur coat—what did it cost?"  
"One single kiss."  
"That you gave your husband?"  
"No, that he gave the maid."

Minard's Lintment—a reliable first aid.

The Province of Manitoba last year produced 7,388,000 pounds of honey. Seven years ago the annual production was less than 1,000,000 pounds.

In trying to win a girl's heart a young man often loses his head.

MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word *Aspirin* printed in red? It isn't the genuine Aspirin without it! A drug store always has Bayer, with the proven directions tucked in every box!

### Anything But Peaceful

Doves Are Very Quarrelsome, Says Professor Of Zoology

The dove, for centuries the olive branch carrier and emblem of peace, is found to lead a very quarrelsome family life. There may be some billing and cooing in public, but in privacy the dove mates quarrel.

Dr. W. D. Funkhouser, professor of zoology, at the University of Kentucky, makes the true facts known. It is his opinion that the crow and bluejay are the most intelligent birds and that the yellow-billed cuckoo and the catbird are the "best all-around friends of man."—Capper's Weekly.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

The apple crop of Canada for 1928 is estimated at 3,157,360 barrels, an increase over 1927 of about 350,000 barrels.

There is more fiction in fact than there is fact in fiction.

## HERCULES

PERMANENT BUILDING PAPER

CUT IT—It doesn't tear easily

There's no denying that the most careful carpenter doesn't handle his tools with the dainty movements of a dentist.

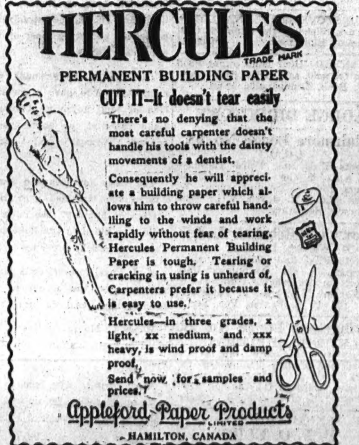

Consequently he will appreciate a building paper which allows him to throw careful handling to the winds and work rapidly without fear of tearing.

Hercules Permanent Building Paper is tough. Tearing or cracking in using is unheard of. Carpenters prefer it because it is easy to use.

Hercules in three grades, x light, xx medium, and xxx heavy, is wind proof and damp proof.

Send now for samples and prices.

**Appleford Paper Products**  
—HAMILTON, CANADA

## TWO SEAPLANES CARRY MATERIAL TO H.B. TERMINAL

Ottawa, Ont. — Remarkable feats have been performed and more are being attempted this year for the Hudson Bay terminal project.

Two seaplanes, under the guidance of Flight Officer James, of the Royal Canadian Air Force, are making two flights daily between Nelson and Churchill, transporting men and material from Nelson to the New Hudson Bay railway terminal.

Each plane is doing 600 miles a day. In addition to the large amount of material transferred by the seaplanes within the past month or six weeks, 116 men who have been working at Nelson have been transported to Churchill without any mishap.

The fliers have also taken photographs for use by the topographical survey branch of the Department of the Interior, and observed ice conditions off the two harbors. At present 225 men are at work at Churchill and 200 remain at Nelson dismantling the equipment there and preparing it for transfer to Churchill. Eventually practically all of these men will have been moved to Churchill.

A large amount of transfer work is being done by boats, the material from Nelson being taken to the temporary docks constructed at Churchill. About 13,000 tons of such material and supplies will be moved during the present summer.

Another big project is the towing to Churchill this summer of the two dredges from Montreal.

Barring accidents it is expected that the two dredges will reach Churchill by September 20, too late to do much work this year.

Their real performance will come when the summer comes. The dredges and their convoys will represent a value of over \$150,000. The two dredges cost \$400,000 each, in addition to which will be a large quantity of material on at least one of the convoys.

Three hundred thousand feet of crib lumber is now being loaded at New Westminster, B.C., ready to leave next Sunday to journey southward down the Pacific coast, through the Panama Canal and thence to Hudson Bay. She is expected to reach Churchill about September 10. Two other vessels with supplies are due to leave Halifax at an early date.

## Tunney Retains Championship

Heaney Succumbs To Technical Knockout In Eleventh Round

Yankee Stadium, New York. — Blinded and staggering, his face a bloody smear, Tom Heaney, the hard rock from Down Under, collapsed and fell a victim to a technical knockout in the eleventh round of his world's heavyweight championship battle with Gene Tunney.

Tunney, born and bred in New York, and defending his title at home for the first time, cut the stout, courageous New Zealander to pieces, subjecting him to one of the worst beatings a challenger ever received.

The spectators saw Heaney wade into unbroken slaughter through round after round, as Tunney, the master boxer, lashed his face with left hooks and pounded his heart with vicious solid rights.

Heaney came charging in like a bull, but the elusive Tunney, cool and collected, evaded his wild rights to the jaw and stabbed him with lefts to the face until the thud of the gloves against Heaney's cut and bruised face almost became monotonous.

## Noble Reaches Norway

Harbor Workers Refuse To Handle Ropes Thrown From Ship To Dock

London.—With its flag at half mast, the supply ship Citta di Milano with General Torvald Noble and the survivors of the Italian disaster on board, arrived at Narvik, Norway, said a Central News dispatch from that city.

The arrival, added the dispatch, was watched with sullen interest by the harbor workers who refused to handle the ropes thrown from the ship to the docks.

The attitude of the Norwegians toward the Noble party was caused by the reports of the capture of Prof. Malmgren, Norwegian scientist with the expedition, who was injured and left behind.

Canada's hens produce over 250 million eggs in a year, worth \$60,000,000.

W. N. U. 1744

## Phone Call From London

Moose Jaw Station Converses With British Metropolis In Test Talk

Moose Jaw.—"Hello, this is London, England, speaking, how do you hear me?"

This question was asked by a voice speaking 6,000 miles away while the listener was a Moose Jaw man, J. A. Inch, wire chief of the local telephone office. For two or three minutes Mr. Inch conversed with the man speaking from the metropolis of England, some 6,000 miles away, and he could hear him clearly throughout the conversation.

The test call was put in from the British Isles to Saskatchewan to demonstrate the efficiency of the long-distance system recently inaugurated whereby a person in the West can converse with anyone in the Old Country.

## Veteran Mountie Dead

Captain Denny Enlisted When Force Was Being Organized

Edmonton.—One of the two last survivors of the original troops of the Royal Northwest Mounted Police to cross the plains in 1874, Capt. Sir Cecil Edward Denny, 79 years old, died at his home in the County of Kerry, Ireland, died in a local hospital on July 24.

He left Ireland at the age of 24 and enlisted at Ottawa in the R.N.W.M.P. which was just being organized. He rose to the rank of Inspector in the force and was one of the officers to sign the famous treaty of 1877 with the Indians.

In late years Sir Cecil Denny has been acting as archivist for the Canadian Government, and has written several books on early life in the west.

## Nova Scotia Reports Few Men Available

Cannot Supply Number Asked For To Assist In Western Harvest

Halifax.—The department of natural resources has notified the minister of labor, at Ottawa, that Nova Scotia would be unlikely to supply more than 75 per cent. of the number asked for to assist in the harvest of the Western wheat crop. It is estimated that owing to the increased activity in the province in building and mining industries, the number of men who will go on the harvest excursion from Nova Scotia would not be more than 1,200.

## Find Wreckage Of Plane

Idea Is Advanced That It May Explain Fate Of Nungesser-Coll

Copenhagen.—A fragment of aeroplane wreckage with some silver and bronze colored fabric attached to it, has been picked up off the Jutland Coast.

In the belief that the wreckage may possibly be part of the Nungesser-Coll "plane lost" last year, the fragment has been sent to Paris for identification. The wreckage was found by Dr. Frode, a Danish physician. There was a wireless receiver among the fragments.

## Heads Teachers' Federation

Winnipeg Men Is Elected President For Coming Year

Winnipeg.—C. W. Laidlaw, B.A., principal of the Machray junior high school, Winnipeg, was elected president of the Canadian Teachers' Federation at the ninth annual conference here.

The other officers of the association for the coming year are C. Braden Kelly, of Summerside, P.E.I., who was given the majority vote over C. H. Sweet, of Alberta, for vice-president, and Alderman M. J. Colwell, of Regina, who was re-elected secretary-treasurer of the organization.

## Will Investigate Noble Charge

Rome.—Italy's inquiry into the conduct of the Noble expedition, which has been ordered by Premier Mussolini to still hostile criticism throughout Northern Europe, is expected to be opened late in September or early in October. It is believed that it will be directed by Mussolini himself.

## Hail Ruins Crops

Saskatoon.—Heavy grain crops, almost ready for the harvest, were completely wiped out in some parts of central Saskatchewan last week by hail which accompanied the worst electrical storm to have swept this district in a decade.

## Plan Visit To States

New York.—Field-Marshal Lord Allenby and Lady Allenby have planned a visit to this country, and are due to land here October 2.

## Balfour At Eighty

Distinguished British Statesman Has Been Adviser To Three Sovereigns

London.—Great Britain celebrated recently the 80th birthday of one of her most distinguished statesmen, the Earl of Balfour. Lord Balfour's public service goes back back 54 years, for he entered the House of Commons in 1874, and he is one of the few great survivors of the Victorian era. He was adviser to three successive sovereigns.

The only other statesman of outstanding eminence in the period alive today is the Earl of Rosebery. He has been out of politics for 20 years and is an invalid. Earl Balfour is a member of the cabinet today, being Lord President of the Council.

Notwithstanding the throat infection which laid him aside during the winter and spring, he is again normally active. His recent illness necessitated a rest from his usual physical activities including tennis, of which he was a devoted player, but the Daily Mail quoted him recently as saying that he intends to take up tennis again shortly.

## Lindbergh's Earnings Large

Federal Tax Payments This Year Amount To \$30,000

Washington, D.C.—During the latter part of 1927, according to reliable calculations, the earnings of Charles A. Lindbergh, New York-Faris flier, amounted to \$204,000 and his Federal tax payments this year amount to \$30,000. He started his earnings by winning the \$25,000 Orville prize for being the first to fly the Atlantic to Paris. For touring 70 American cities he received \$300 a day from the Guggenheim Foundation.

## WILL CONSIDER MORE PLANS TO AID IMMIGRATION

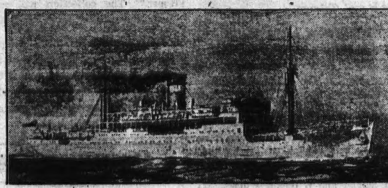

Ottawa, Ont.—The announcement by Right Hon. Winston Churchill that the British government is prepared to spend more money in stimulating British immigration to Canada has created deep interest at Ottawa. While officials of the immigration department are unaware of the various policies suggested, it is expected that Lord Lovat, who will arrive in Canada shortly, will have complete details.

All of the proposed policies with the exception of the boy immigration scheme are either new or are schemes which have been suggested by the Canadian government and refused by the British Government.

This is true, particularly of the proposal to give to settlers a substantial loan to aid them in commencing farming. The Canadian government obtained the consent of the British Government, in the 3,000 family scheme, to an agreement whereby the British Treasury advanced \$1,500 per head but when the agreement expired the British government sought to reduce the amount for future settlement to \$800. When this was refused they increased the amount to \$1,200 and it is not expected that they will be prepared to deal with settlers in still more generous terms.

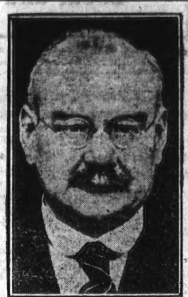

In the matter of reducing the ocean rate the Canadian government has hitherto been opposed to spending more public funds for this purpose, but it is believed that the steamship companies and the British government may unite to this end. The other schemes suggested by Mr. Churchill are all regarded sympathetically at Ottawa, and as soon as Lord Lovat arrives the department will reach a decision.

## NEW CANADIAN STEAMSHIP

The "Lady Nelson," first of five steamers being constructed for the Canadian National Steamship line to be operated between Canadian Atlantic ports, the West Indies, British Guiana, Bermuda, the Bahamas and Jamaica. They will engage in passenger, cargo and mail traffic, with special refrigerator equipment. The passenger accommodation will be of the most complete character. In construction these ships are being built to comply with all requirements and will possess the most complete facilities for comfort and safety. The "Lady Nelson" was launched on July 17th, and was christened by Madam Lapointe, wife of the Minister of Justice.

## TO VISIT CANADA

Right Hon. Thomas Shaw, M.P., minister of labor in Ramsey MacDonald's cabinet, who will tour Canada with the British Parliamentary Association.

## Alberta To Consider Town-Planning Scheme

Premier In Position To Make Recommendation To Council

Edmonton.—Premier Brownlee has returned from his visit to the University of California, where he gave the opening address at the fourth annual convention of the American Institute of Co-operation, by invitation of the U.S. federal minister of Agriculture.

En route, he stayed at Victoria and Vancouver to interview two possible town planning directors for Alberta's recently-formed Town Planning Commission.—H. L. Seymour, town planning commissioner for Vancouver, and Doughty Davies, who has just completed a town planning survey in Victoria. These two, with other applicants will be considered by council in the near future, and the premier indicated that he was in a position to make a recommendation to council.

## May Meet In Canada

League Of Nations To Consider World Disarmament Conference

Ottawa.—A world disarmament conference, vastly more far reaching in its scope and consequence than the United States Multilateral Treaty for the outlawry of war, will be considered by the council and assembly of the League of Nations in September.

It is said that in the event of the conference being decided upon the Prime Minister of Canada may issue an invitation for the conference to be held in Canada.

## Big Opium Seizure

Shipment Valued At \$120,000 Is Seized At Nanaimo

Nanaimo, B.C.—Opium valued at \$120,000 was seized in the bonded warehouse here. It was concealed in a package of freight marked "peanut oil" and other contraband. The packages were addressed to Lun How, a local Chinese merchant and are thought to have come over on a liner recently arrived from Asiatic ports.

The seizure was made by provincial police assisted by officers of the customs preventive staff.

## Lessening Fire Hazard

Winnipeg.—Rain is gradually lessening the fire hazard of the forests of Northern Manitoba districts, and according to forestry officials here the 20 to 30 fires which the Royal Air Force and the fire rangers have been fighting strenuously during the past month, are gradually petering out under the drenching.

## Cannot Supply Plane To Hunt Prospectors

Department Of National Defence Receives Many Appeals

Ottawa.—"The first requisite of a prospector is the ability to find himself." That is the view taken by the Department of National Defence as outlined by an official of that department. The department is being inundated with appeals for "planes" in search for prospectors thought to be lost.

"When a prospector in the Northern woods fails to turn up when his employers or associates think he should, they rush to the Department of National Defence asking that a 'plane be sent to search for him,'" said this official. "In most cases the department declines. In the first place, the prospector is probably not lost at all, but somewhere has impeded his progress. Then if he were lost there is very little chance of an airman seeing him from a 'plane.'"

## English Cadets Will Compete

Ottawa.—A party of English cadets which will make a tour of Canada, will participate in the annual pageant of the Dominion of Canada Rifle Association here, Aug. 13 to 17. There will be fourteen in the party, under the command of Captain R. J. E. Hanson. Ten members of the Australian Blesley team, who will return home by way of Canada, also are likely to take part in the matches, while most of the members of Canada's Blesley team are scheduled to enter.

A team of cadets from Victoria High School, Victoria, B.C., will take part in the Dominion matches and will motor from the capital of the Western province.

At the matches last year there was one woman competitor and this year there is a prospect of four or five women entrants from Saint John, N.B.

## Start Long Water Trip

Vancouver Men Sailing From New York To San Francisco Via Panama Canal

New York.—James McArthur and Sydney A. McQuillan, both of Vancouver, B.C., sailed down the Hudson River in a 34 foot motor launch, the "Miss Vancouver," bound for San Francisco. They will go by way of the Panama Canal.

McQuillan, who is a well known speed boat enthusiast of Vancouver, and who has already travelled more than 10,000 miles in that type of craft, is in support of the trip as a method of proving the possibility of using a slow speed motor in a high speed hull.

## ARCHBISHOP OF CANTERBURY HAS RESIGNED OFFICE

London.—After serving for 20 years as Archbishop of Canterbury, Right Rev. Randall Thomas Davidson has resigned. His long-expected retirement was undoubtedly hastened by Parliament's second rejection, last month, of the revised prayer book, in support of which he had labored for years.

It was announced officially that the King had received with great regret an intimation from the Archbishop that he was desirous of resigning his high office. His Majesty, on the recommendation of the Prime Minister by Royal Warrant, appointed a commission consisting of the Archbishop of York, Bishops of London, Durham and Winchester, for the purpose of receiving the resignation of the primate.

The commission reported that it accepted the archbishop's resignation and took effect on November 12, of this year, and this has been approved of by His Majesty.

The Archbishop of Canterbury, 96th of his line, is 80 years of age. At a number of provincial or privately held services he and his wife will celebrate their golden wedding anniversary, and it is planned to present to them on this occasion a fund which is now being collected, to ensure greater comfort in their declining years. A memorial will also be placed at Lambeth Palace, residence of the Archbishop of Canterbury, to mark the general gratitude for Dr. Davidson's long and faithful services to the church and the nation.

Most Rev. Cosmo Gordon Lang, Archbishop of York, is the most probable successor to Dr. Davidson, in that it is reported he has already been offered the post and has indicated his acceptance.

## WOULD FORM A CENTRAL BUREAU OF EDUCATION

Winnipeg.—Agitation for the establishment of a Dominion Bureau of Education, which had its inception at a former assembly, was revived in resolution form at the Canadian Teachers' Federation convention.

The objects of the bureau would be to bring about uniformity in the standards of the teaching profession, and the creation of a federal teachers' registry, centralization of educational policies and stimulation of research work under government supervision.

Another resolution upon which action was deferred, asks the national research council to set aside a certain sum of the annual grant for the study of educational psychology.

A resolution advocating that steps be taken by the departments of education in the various provinces of the Dominion to limit the number of students attending normal schools to the needs of the provinces was passed back to the resolutions committee for re-draft.

A comprehensive survey of the advancement made in the field of educational research was given by Dr. W. F. Russell, dean of Teachers' College, Columbia University, N.Y. In his opinion there was a tremendous need for intensive and concerted effort in this work. Granted that normal progress noted in the past was continued in the future he predicted that the teaching profession in the next hundred years would see a significant advance in its field of medicine and other sciences.

Dr. Russell stated that too much stress could not be laid upon the importance of scientific study of educational progress. He expressed the hope that Canada and the U.S. would join with other nations of the world in interchanging results obtained from their independent investigations. As such a forward step, overlapping would be adopted to a degree, educational standards materially advanced while the pupil would derive inestimable benefits.

## Harvesters From B.C.

Coast Province Will Be Able To Supply Many Harvesters To Prairie Provinces

Vancouver.—British Columbia will be able to supply its usual quota of harvesters to the prairie provinces this year. In the opinion of government officials here. While it is stated conditions in British Columbia are better than in past years, it is estimated that six thousand men will be available for the harvest fields of western Canada this year. In the opinion of J. H. McVey, superintendent of the Dominion employment service.

## Record Number Of Entries

Many Nations Will Be Represented At Olympic Events

Amsterdam.—Entries for Olympic swimming, rowing, yachting, wrestling, modern pentathlon and cycling have closed with a record number of countries signifying their intention of competing.

Thirty-four nations will be represented in the Olympic swimming, 23 in yachting, 20 in rowing, 29 in wrestling, and 14 in the modern pentathlon.

## Portrait Presented To Dominion

Ottawa.—A magnificent life-size portrait of the late Earl of Minto, at one time Governor-General of Canada, has been presented to the Dominion archives. The portrait, the work of Miss Vical, an English artist, arrived recently, and has been hung in the room devoted to Governor-General. The Dowager Countess of Minto, widow of the late administrator, donated the gift to the nation.

## Situation Much The Same

Ottawa, Ont.—Renewed reports that the Government may take over a number of provincial or privately owned railways in different parts of the country and merge them with the Canadian National, brought the statement from the Minister of Railways that the situation is very much the same as in the last session when he stated that Sir Henry Thornton is looking into all these propositions.

## Camp Borden Film Killed

Toronto.—While dropping a note from an airplane to his fiancée, Miss Dorothy Falls, at Wagsa Beach, Ralph Brown, 29 years old, of Winnipeg, Camp Borden pilot, is believed to have struck an air pocket and crashed to his death when the machine collided with a tall pine tree.
